

Quick-Access Training

New Resource for Our Members!

CSDSIP InSight Newsletter | September 2020

You asked and we heard you!

Our Members put their flexibility and creativity on display in light of the COVID-19 Pandemic and the sudden changes it caused. CSDSIP strives to match your strength by developing resources that will help you navigate this unprecedented situation, and making sure these resources stay dynamic enough to meet your needs. You made it clear to us that, while our

robust online training suite gives you access to valuable training materials, sharing these materials with your staff has been a challenge in the past. To solve this access gap, CSDSIP created our Quick-Access Training. This resource consists of high-demand online training collections, designed for easy staff distribution as they require only a simple password for log-in. This is not meant to replace our Online Training Suite, which remains available, but instead to help facilitate broad staff training in a short amount of time, without the hassle of log-in requirements.

Currently, we are debuting our Back-to-School Training Package in this format which includes our most requested offerings: ***NEW*** Mandatory Reporting, Adult Sexual Misconduct, Claire Davis Act, Cyber Deception & Data Protection, and Defensive Driving. We also offer add-on access to our Playground Supervision Training, tailored for relevant staff members.

This collection is a unique benefit of Membership, and due to contract requirements on some of our videos, we will keep this offering password-protected. This password will change on a bi-weekly basis, but Members can stay up-to-date on current password information and change dates on the Quick-Access Training Instructions page of our website. Member staff in charge of training setup will access this page through a traditional log-in, and can then distribute information out to staff. It even includes copy-paste training access instructions, so you can get trainings to the right people in just two clicks!

We hope this new resource helps you and your staff start the 2020/21 school year right! As always, feel free to contact the CSDSIP Risk Control team with any questions you might have regarding Quick-Access Training or our Back-to-School Training Collection at 303.722.2600.
